

Learning Blog Dosbarth Dewi

We've enjoyed another exciting and busy week in Dosbarth Dewi. In our literacy sessions this week we've worked hard to recount the Nativity story. We listened to a retelling of the story very carefully and acted out scenes in groups. We discussed the characters in depth and thought about how they might be feeling at different points in their journey to Bethlehem. We then started to write the Nativity in our own words. We worked hard to create sentences, sound out/ spell words, form our letters accurately and even add speech!

In maths we started to look at money. Firstly, we discussed what money was, when and why we use it. We then looked at the different coins, discussing what we could see and what the different symbols meant/ represented. We created a money line, ordering the coins in order of their amounts. We all thought that the smaller coins would be worth less than the larger coins, however, we soon discovered that it doesn't work that way. We then made amounts using coins, remembering to count very carefully. We had to be very cautious, as some coins were worth more than 1p.

Learning Blog

Dosbarth Dewi

This week we entered a very special and important time in the Christian calendar. A time where we look forward and prepare for Christmas. We really enjoyed learning about advent this week and collectively made an advent wreath. We learnt about the advent wreath and what the different parts/ candles and colours meant. We enjoyed a worship led by Reverend Caroline, who explained that the first purple candle represented 'hope'. We shared our own hopes and dreams as a class and discussed some of the things we are looking forward to next year.

Finally we ended the week by filming our very special snow person dance. We really enjoyed dressing up in our costumes and recording it for you all to see very shortly! We can't wait for you to see it.
